**Troubleshooting guide**

Problem	Solution
Contacts from SIM card are not displayed in car.	The Multimedia Navigation system cannot display contacts stored on SIM card. Please copy contacts from your SIM card to mobile phone
Phonebook is displayed partially or is not available at all.	The Multimedia Navigation system supports contact numbers stored as Mobile, Home, and Office. Numbers stored as General, Main, Other, etc are not displayed. Please check contact numbers in your phone and if required change category of the number to one of: Mobile, Home, Office.
	The Multimedia Navigation system can display one number per category. If your contacts have multiple numbers in one category (for example Mobile), only one of them will be displayed.
Microphone is not working.	Please check microphone status on the Multimedia Navigation system display. Activate the microphone if required.
Cannot handle multiple calls.	Multiple calls are not supported by the Multimedia Navigation system.
Bluetooth search does not find iPhone.	To pair an iPhone, please set the Multimedia Navigation system to external authorisation mode and perform pairing from the phone.

**Phone list**

Brand	Model	Telephone software	Incoming call	Outgoing call	Phonebook	Call Lists	Telephone status
